BI-MU: a 70-year history

The 35th edition of the exhibition will be in the limelight

From October 13 to 16, 2026, fieramilano Rho will host the 35th edition of BI-MU, the leading Italian trade show dedicated to the industry of metal forming and metal cutting machine tools, robots, automation systems, digital and additive manufacturing, auxiliary and enabling technologies.

Promoted by UCIMU-SISTEMI PER PRODURRE, the Italian machine tools, robots and automation systems manufacturers' association, and organized by EFIM-ENTE FIERE ITALIANE MACCHINE, BI-MU is the only trade fair for the sector in Italy with international appeal, the first one to open up to the world of connectivity for the industry. Once again the exhibition will update its product offering to meet the needs of the market, featuring a special edition by which it will celebrate its 70-year history.

In this connection BI-MU has chosen "Where it all began" as the theme for the exhibition, which is dedicated to the history of the sector and to the evolution of the industry over the years. The exhibition will highlight the long and enduring tradition of this exhibition.

The trade show has been organized consistently for 70 years, ensuring its relevance and its position as the leading exhibition in the sector. The exhibition will feature the latest technologies in the industry, including digital and additive manufacturing, robots, automation systems, auxiliary and enabling technologies, and more. The exhibition will also feature a special edition by which it will celebrate its 70-year history.

The spotlight of the exhibition will be on the latest generation of digital and automation systems and technologies, including digital and automation systems, auxiliary and enabling technologies, and more. The exhibition will also feature a special edition by which it will celebrate its 70-year history.

BI-MU will also offer special attention to the latest technological trends, including digital and automation systems, auxiliary and enabling technologies, and more. The exhibition will also feature a special edition by which it will celebrate its 70-year history.
